Environmental Engineering: New Challenges for Testing and for Materials

Chaired by Giulio D'Emilia, A.I.VE.LA.

The round table aims at discussing methods and approaches of environmental engineering able to improve reliability performances of materials and systems with respect to the environmental impacts. Based on invited contributions of experts from CEEES, A.I.VE.LA and Polytechnic of Bari (Department Mechanic Mathematic Management), the discussion is expected to merge ideas, actions to carry on and to promote cooperation.

Physical simulation test for the reliable design of manufacturing processes, Maria Emanuela Palmieri, Polytechnic of Bari, A.I.VE.LA

Vision based defect detection techniques on composite pieces; discussion about measurement uncertainty

Emanuela Natale, DIIIIE-UnivAQ, A. Gaspari, DMMM - PoliBA,

The role of simulation for the assessment of process parameters for efficient and reliable products of composite materials, A. Stamopoulos, UnivAQ,

Digital Twins in Environmental Testing, Markku Juntunen, EERTECH, KOTEL

Summary and Actions of the TAB Meetings

Impulse Presentations and Statements from the Audience

12.00 Wrap up and end of the meeting

Host

A.I.VE.LA., the Italian member of CEEES, promotes this event with the aim of supporting a fruitful exchange of experiences, knowledge and research hints. People involved in topics of environmental engineering - but not only - are networking in Europe and in CEEES.

In order to reach this aim, the participation of interested people to both Technical Advisory Boards (TAB) and to the Round Table is very much appreciated.

Registration

To each TAB, General Assembly and Round Table a separate invitation link will be send to the registered person.

Therefore, a formal registration is necessary.

The participation is free for all CEEES Members (Members of the member association of CEEES, please name in the registration the representing CEEES Member).

The organizing committee invites speakers. Impulse presentations from participants for the TABs or Round Table should be announced with the registration (short abstract).
